

# Lab 9

- Link to your completed tests/integration/lab-9-s3.hurl in your fragments GitHub repo

[lab9-s3.hurl \(https://github.com/shawnyu5/fragments/blob/master/tests/integration/lab9-s3.hurl\)](https://github.com/shawnyu5/fragments/blob/master/tests/integration/lab9-s3.hurl)

- Screenshot of your tests/integration/lab-9-s3.hurl test passing, when run against your fragments server and LocalStack using docker-compose (i.e., show the terminal(s) running the necessary commands to make this happen)

```
[shawn@shawn-thinkpad ~/seneca/semester_6/CPP555/fragments] ↵ 1 📁 master
$ docker compose -f docker-compose.offline.yml up --build -d --remove-orphans
